

We received files of Ontario papers by the mail on Thursday to date of 6th inst., containing reports of the first two days' proceedings of the Royal Commission appointed to investigate the charges made by Mr. Huntington against the Government, of having sold the charter of the Canadian Pacific Railway to Sir Hugh Allan & Co., for certain monetary considerations, to be employed by the Government and their friends in buying up constituencies during the general elections held in 1872. So far as the evidence yet taken is concerned, nothing has been elicited of a criminal character against Sir John A. Macdonald or any member of the Government. In fact the tendency of the evidence is altogether in an opposite direction. The first witness examined was the Hon. Henry Starnes, of Montreal, the gentleman in whose hands a sealed packet was placed by Mr. Abbott for safe keeping on behalf of Sir Hugh Allan and Mr. G. W. McMullen. When asked by the Commissioners to deliver up the papers he did so, but objected to their being opened without first obtaining the consent of Sir Hugh Allan. Mr. Abbott here presented a note from Sir Hugh consenting to the package being opened, but objecting to any papers being used or published unless found to contain evidence to be legally and judicially used in the case. The package was then opened, but the documents were not read. It is generally believed that the documents contained in the package are either in whole or in part the same as have already been made public, consisting of confidential correspondence between Sir Hugh Allan and Messrs. McMullen and Smith, of Chicago. Possibly, however, there may be other documents that have never yet seen the light publicly; if it were not so, we fail to see any force in the condition exacted by Sir Hugh against their being made public unless found to contain evidence to be legally and judicially used in the case. Mr. Starnes was a member of Sir George Cartier's election committee in the elections of 1872, and says large sums of money were subscribed by Sir Hugh Allan and other friends of Sir George, to aid in carrying on the contest, but what amount was given by Sir Hugh he could not tell. The total amount of subscriptions was between \$60,000 and \$75,000. In answer to the question as to whether he had any knowledge in relation to such negotiations being carried on between Sir Hugh Allan and Mr. McMullen for the purpose designated in Mr. Huntington's charge, he replied that he had no personal knowledge of the matter whatever. Sir Francis Hincks gave a very lengthy and detailed account of the various interviews had with Sir Hugh Allan, McMullen and others, in relation to the organization of the Pacific Railway Company but denied in the most unequivocal terms that any understanding was come to with the Government, Sir Hugh Allan and Mr. Abbott, one of the members of the House of Commons of Canada, that Sir Hugh Allan and his friends should advance a large sum of money for the purpose of aiding the election of Ministers and their supporters at the ensuing general elections, and that he and his friends should receive the contract for the construction of the railway, but admitted that Sir Hugh was a liberal contributor to the election fund, but could not say as to what amount. According to Sir Francis' testimony, the Government were from first to last opposed to having anything whatever to do with American capitalists in connection with the building of the Canada Pacific Railway. Mr. Andrew Allan and Mr. E. L. DeLille were also examined under oath, but the only fact of public interest elicited was from the last named gentleman, viz., that Sir Hugh Allan had advanced the sum of \$7,000 to Mr. Beauchamp, for the purpose of procuring the payment of expenses incurred at his election. However this may affect Mr. Beauchamp's character as a member of the House of Commons, it certainly cannot affect the Government, as there is nothing to show that the Government, either directly or indirectly, knew anything about the transaction, until it was made known before the Commission, as above stated. Not, however, before the Commission, but after the fact, when only just commenced their labors, and that there may be important revelations made before their labors come to a close. As for Mr. Huntington, he declines to come before the Commission, and whatever evidence he may possess to justify the serious charge he has preferred against the Government, he intends not to reveal until he is in a position to do so before the House of Commons. It would appear, also, that it is the intention of Geo. W. McMullen to follow the course which Mr. Huntington has thought proper to pursue in relation to this matter, and that he will not appear before the Commission to give evidence. What effect this may have upon the general issue, we cannot tell. It is certainly calculated to leave the matter in a very unsatisfactory state, inasmuch as it will defer final action thereon until the next meeting of Parliament, when, in all likelihood, the whole evidence will have to be gone over again. As we have before observed, the evidence so far is entirely in favor of the Government. Not the first title has been elicited to show that Sir John A. Macdonald, or any other member of the Government, had any more to do with Sir Hugh Allan's private negotiations, than the man in the moon. Huntington, Sir Hugh, and Geo. W. McMullen are yet to be heard from, and until they have made a clean breast of all they know, and they profess to know a great deal more than has yet been made public, it would be impolitic, at least, to express any decided opinion one way or the other in reference to the question at issue. So far the weight of evidence is in favor of the Government, and we most heartily wish it may continue so until the end.

"THE RAYMOND."—A. B. Gray, sole agent for British Columbia, for the manufacturer has received a supply of "The Raymond Sewing Machines," to which are attached hemming, braiding, frilling and tucking appliances. Combining in an elegant shape and artistic design, the several valuable qualities claimed for other machines, "The Raymond Sewing Machines" add new points of excellence. An inspection will show them to be the cheapest, while a trial will prove them to be the easiest to learn, the most durable, and the most satisfactory sewing machines for the workshop or for family use. To be had in all sizes from the advertiser, who has also on hand a supply of extra needles.—Government street, Victoria, 15th Sept., 1873.

THOS. RUSSELL, Secretary.
12th September, 1873.
PROVINCIAL SECRETARY'S OFFICE.

THE Lieutenant-Governor directs the insertion of the following Despatches and enclosure from Her Majesty's Principal Secretary of State for the Colonies to His Excellency the Governor-General of Canada, which have been transmitted to His Honor for publication in the Province.
CIRCULAR.
Downs House, 28th July, 1873.
Sir,—I have the honor to transmit to you for publication in the usual and most authentic manner in the Colony under your Government, a copy of an Order of Her Majesty in Council of the 26th June, requiring parties appellants in cases pending before Her Majesty to take effectual steps to set down their cases for hearing within a limited time from the Registration of the appeal in England. I have, &c.
(Signed) **KIMBLEY.**
The Officer administering the Government of Canada.
AT THE COURT of WINDSOR, the 26th day of June, 1873.
PRESBY.
The Queen's Most Excellent Majesty in Council.
WHEREAS in many Appeals now pending before Her Majesty in Council no effectual steps have been taken by the parties or their agents to set down their cases for hearing, although more than twelve months have elapsed since the arrival and registration of the transcript of appeal in this country, and it is expedient to make further provision in that behalf, Her Majesty, by and with the advice of Her Privy Council, and upon a recommendation of the Lords of the Judicial Committee of the Privy Council, is pleased to order, and it is hereby ordered, that the solicitors or agents for the party appellants in all such Appeals now pending before Her Majesty in Council within a period not exceeding twelve months from the date of the arrival and registration of the transcript in this country.
And Her Majesty is further pleased to order, and it is hereby ordered, that it shall be the duty of the Registrar of the Privy Council to report to the Lords of the Judicial Committee the names of the parties and dates of the transcript of the appeal in which no effectual steps have been taken within the aforesaid periods of time to set down the case for hearing; and the Lords of the Judicial Committee of the Privy Council shall be at liberty to call upon the appellants, or their agents in such cases to show cause why the said appeal or the transcript thereof should not be dismissed for non-appearance, and if they shall so think fit to make such order as they may think proper in relation to such appeal, or to give such directions therein as the justice of the case may require.
And Her Majesty is further pleased to order that nothing in the present Order shall prevent the dismissal of an appeal under the said Order, if the appeal is not presented to Her Majesty in Council, on the 15th of June, 1873, in cases in which the Rules are applicable.
Wherefore the Governors of Her Majesty's Plantations and Dependencies abroad, and the Judges or Officers of Her Majesty's Courts of Justice in which an Appeal lies to Her Majesty in Council, and all other persons whom it may concern, are to take notice and govern themselves accordingly.
(Signed) **ARTHUR HILLES.**

The C
lor, and mortg

The Daily Standard

Monday, September 22nd, 1873.

Lower Fraser.

Mr. Hargreaves got down to New Westminster on Friday, from Hope, whither he had been surveying the silver mines. He has a favorable opinion of the wealth of the peak.

Harvesting is nearly finished at Langley, in which district the crops are likewise heavy. The steamer Favorite, from the Sound, has been to New Westminster, and took away for shipment to Australia, 450 barrels of cured salmon.

Dr. Jennings, who represents a number of San Francisco capitalists, is at New Westminster, and is engaged in examining the salmon fisheries, with a view to the establishment of a fishing station on a large scale at some point on the river.

The New Westminster Herald is distributing maps of the district, showing the lands to be sold on the 30th.

The New Westminster Guardian has become an out-and-out Green sheet.

An Indian, for attempting to rob Mr. Cunningham's till, was sentenced to a whipping, which was duly administered.

Mr. H. Cooper will commence at once to put a sawmill upon Popple river, Chilliwack district.

The children of the New Westminster Episcopal Sunday School, had a picnic given them on Saturday.

Picture Agent—Mr. John, in his Sunday's editorial on "Soreheads," and his head is very sore, indeed, "brain very much irritated," inflammation brought on by catarrh, caught in the cold shades of the Opposition. Yes, the Honorable John, in order to wriggle out of the predicament into which he got himself, when he tried to induce Mr. McCreight to make a fourth portfolio for him, although he now denounces the fourth portfolio, stated yesterday that "the editor of the organ, (meaning Mr. DeCosmos and the Standard), who, after returning from Ottawa in 1872, himself asked to be taken into the McCreight Cabinet, but was refused."

What a sweet morsel this would be for the Hon. John, were it true! But it is not true, for the good and sufficient reason that Mr. DeCosmos never asked after his return from Ottawa, in 1872, to be taken into McCreight's Cabinet. Poor John! What a splendid remanence was spoiled when you took to fibbing! But that is not all. You seek John allows to Mr. DeCosmos as editor of the Standard. Now he is neither editor nor proprietor of the Standard, as Hon. John well knows; but the Honorable John is devotedly attached to fibbing, and his brain has become so irritated by indulging in the pernicious habit, that there is nothing that will prove an effectual cure, his weakness till he has frankly confessed that he did ask Mr. McCreight for a fourth portfolio, and was refused; and that he now, out of pure spite, denounces the Government because he was not given an office.

MOBILITY'S RAILWAY PARTY.—Mr. Hall, of the Walter Mobility corps, returned to Victoria by the Maude, from the Fraser, on Saturday. The corps, when he left it, was this side of Moose Lake, Rocky Mountains, all well, and would be here in two months. Since the absence, over two years, they have cut and explored over a thousand miles of line, and find the country quite practicable for a railway. They penetrated the Saskatchewan Territory as far as the Pembina river, a branch of the Athabasca, and on the 20th of August last, on the return, were at Fort Edmonton. There would now be no difficulty to travel from British Columbia across the mountains to the other side; a good trail to be found the whole way. And prospectors are already availing themselves of the facilities of travel, and are examining the various rivers and streams on the route, with a view to prospect for new gold mines. It was also said that a considerable number of persons will find their way into this Province from the east this winter by way of the route just opened to travel. Should the recommendation of Colonel Ross to establish a military force at a few points on the plain be carried out, little need be feared from the Indians. Mr. Hall says the news had been received from Fort Garry that the Adjutant General's suggestions would be carried out.

FROM THE BIRD.—Messrs Booth and C. H. Chatterly, who left a month or two since for Big Bend, consequent upon a summons from parties already there, returned here on Saturday much disappointed with the result of their trip. They state that their friends were themselves mistaken. They thought from the indications that new and rich diggings were about to be discovered, and so they sent for their friends here. On arrival of the latter at French creek, it was found that the discovery didn't at all meet the anticipations which had been formed of it, and seeing that the inducements to remain were all gone, the parties who so suddenly left Victoria to make the fortune they fully believed in, turned round, came back, and are now in town. Four men who are there and have been there for some time, will be down this season also.

LATER FROM THE HOWE SOUND TRAIL.—Some of Mr. Hunter's trail party are down, and report Ganaby's survey corps at the Pemberton wagon road, and would take some six weeks to reach Lillooet, to effect a junction with the Jarvis line. Sampson's cattle trail party have constructed their line, to connect with the Howe Sound, and are now in the little field along the way, and twenty miles from Pemberton meadows there is an extensive meadow, nearly as large as the Pemberton. The animals kept in good condition all the way.

GRAVING DOCK.—We are really glad to find Mr. Robson in his leader in yesterday's Colonist so earnest about the immediate construction of the Graving Dock at Esquimalt. It is apparently evident that he at least will be prepared to support the Government when they ask the Legislature for assistance to provide the necessary legislation for its construction. But it is to be feared however, that when the time shall have come for the Legislature to act practically in the matter, the Hon. John, true to his chameleon principles, will oppose any measure that Government may submit to secure the immediate construction of the dock. Watch him, men of Esquimalt. Keep him up to the mark. He will stand watching. Make him vote for it.

CHILLIWACK.—The Episcopal Church would be finished, at last, about a week. A new school house was being erected on the south side of the river. Several new residences were going up, and twenty-five families had settled since spring. Harvest is all over; grain, particularly the wheat crop, looks well. Potatoes are blighted somewhat in some localities. Mr. Miller, J.P., committed an Indian for attempting to shoot a Chinaman. "John" gave "Lo" some tobacco, which made him sick; believing that the Chinaman had intended to poison him, he was made to discharge his gun at "John," when it missed fire.

Tas Charlotte Clarke has entered the harbor, and will commence to discharge this morning.

Cariboo and Up-Country.

The Lane & Karts pumps were started last week, but on account of one of the 13-inch pumps getting out of order, the machinery had to be stopped and the pump taken out for repairs.

The Bedrock Flame Co. continue to clean up with good results; the Chinese companies are also taking out considerable gold. The Forest Rose Co. bottomed the shaft at 20 feet, and have started another one. The Balfour Co. are working from their new shaft, four picks working; the ground looks well. Work has been commenced on the upper end of the Bedrock Drift.

The Two Brothers Co., on Jack of Clubs creek, bottomed their shaft at 120 feet, but rock pitching. No change to report in the other claims.

The Ross Co., Lightning creek, are on pay again. Spruce Co. have started to pump in their lower drive; in the upper drive appearances are better. The Point Co. washed up 206 oz. last week and 199 oz. this week up to Thursday morning. The Van Winkle Co. having lost bed rock have gone back and started in the lower drive. The Victoria Co. washed up over 300 oz. last week and 85 oz. on Wednesday. The Vancouver Co. washed up 100 oz. last week and 75 oz. on Wednesday.

A correspondent of the Sentinel says there is no want of labor on Lightning creek, notwithstanding a recent statement of the Guardian to the contrary.

The account of the horse disease, passengers booked at Barkerville a week since would have to stay over until the following week, as all of Barkerville's horses, with the exception of two teams, were affected with the epizootic.

The entomologists who were in Victoria recently and left for the Mainland, arrived at Barkerville some time since. They were successful so far in finding several new species of insects.

Hon. Mr. Walker, who arrived in Cariboo on the 12th, was warmly received by his friends. The court would arrive following day, and the assize be held on the 16th. There was no business at Quesselle.

A Chinaman left Barkerville last week before last for the Forks. He was missing at latest dates, and it was supposed he fell a prey to bruis.

Ned Nelson shot an otter on the 19th, at Bridge creek, which weighed 82 lbs., said to be the largest seen in British Columbia.

The following horses are in training for the 25th and 30th: Tommy, Shookey, Gay Deceiver, Gipsy, Major and Flora, besides several scrubs. The purses are large enough to tempt any and all flyers.

THE GREAT BANK FAILURE.—As was to be expected, the suspension of Jay Cooke & Co. of New York, has caused the failure and temporary suspension of a large number of additional banks and firms throughout the Empire. The Northern Pacific Railway Co. will have to make other financial arrangements before pushing forward its line. A meeting of the creditors of Jay Cooke is announced for to-day. Great crowds were gathered in Wall and Broad streets, New York, and policemen were busy keeping a free entrance and exit of the Stock Exchange. The disaster has also affected some houses in Canada. Some Toronto bankers and brokers have suspended. In Montreal the effect so far is to make the bankers more cautious and less willing to let out their funds.

A BARK RUNNER DOWN.—A fire on Saturday last, at half-past 11, a.m., completely destroyed a large bark, a couple of tons of hay, and some few puppy dogs, the property of Mr. M. F. Dwyer, of Point Minto, Esquimalt.

It is supposed the fire was the act of some little children belonging to the families near, who ignited the hay with matches. The building was insured, we hear, for \$1,000, and would be a fine addition to the city. The fire department reached the scene, but could do nothing beyond saving the adjoining residences of Mr. Drake and Mr. O'Rielly, the roofs of whose premises stood in great danger from burning brands.

The Prince Alfred sailed for this port on Saturday morning. She has the following on board among her passengers:—J. F. McCreight, Q.C., Geo. Curtis, R.N., J. Spratt and wife, T. V. Vanhookerick, Master McTavish, W. Tager, Mr. McTavish and two daughters, Jas. Elliot, Mr. Morrison, Mr. Elford, Mr. Harper and wife, A. C. Fraser and wife, S. Davis, Robt. Beck, Jno. Watson, Rd. Maynard, H. J. Fuller, wife and 3 children, Jas. Semer, C. Nichols, Geo. Lawrence, C. M. Barrow, T. P. Burroughs, Mr. Bowman, and 15 in the steerage.

ICELAND WANTS TO SET UP.—The Danish papers report that an extensive political agitation has begun in Iceland, with the object of effecting a complete separation of that island from Denmark. A great public meeting, which was attended by delegates from all parts of the island, was held on the 20th of June at Thingvallir, the place where the old Icelandic Althings used to assemble, and it was resolved on this occasion to use every effort to put an end to the Danish rule in Iceland.

PASSENGERS.—By the Maude on Saturday evening, the following passengers came down: Mrs. John Trutch, Mr. and Mrs. Wadhams, Mr. Carr, Miss Lacey, Mr. Langley, Messrs. Webster, S. C. Hall, S. T. Dupont, Danley, McE, Smith, McGhie, Miller, McDonald, McLeod, Shannon, Waterhouse, Rivet, Ritchie, H. Kelly, Booth, C. H. Chatterly.

BAKE CHARGES.—Mr. Wm. Lawless, Bank B. N. America, has been promoted to the branch at San Francisco, and will shortly leave for his position. Mr. Grant of the San Francisco branch has resigned, and has transferred his services, we understand, to the Bank of California.

INCORRECT.—The Colonist says Mr. J. S. Deas was refused a map because he is not a subscriber to the Standard. The statement is incorrect; Mr. Deas is a subscriber, and was not refused a map. What else?

THE CALENDAR.—The Hebrew New Year's feast commenced last evening at sunset, and will last two days. Services will be held at the Synagogue. Wednesday will be the feast of Gedaliah.

TRIAL TRIP.—The steamer Otter made her trial on Saturday to Pedder Bay and returned. She worked very satisfactorily, and will sail for the north on Thursday morning, at daylight.

THE POLARIS VOYAGE.—The remainder of the crew of the Polaris have been picked up, and are safe. It would appear that the crew had mutinied.

Mr. Robson on Free Grants. EDITOR STANDARD.—You newspaper people appear to be very obtuse. Do you not know the real reason why Mr. Robson, editor of the Colonist, writes such denunciatory articles about Mr. Adams, Immigration Agent of San Francisco? The reason is quite apparent. He wants the office for himself, and has applied at Ottawa for an appointment as Immigration Agent. Now how disinterested he is, is not? Pass round the truth and let it be known to show up the patriot, Mr. Robson.

QUIDNUNC.

Treaty with Denmark.

Saturday's Government Gazette contains copy of a Treaty entered into between the Government of Great Britain and the King of Denmark for the mutual surrender of fugitive criminals, and is published for general information. The Treaty embraces the following crimes and offences:

1. Murder, or attempt or conspiracy to murder.

2. Manslaughter.

3. Counterfeiting or altering money, or uttering counterfeit money, or altering or uttering what is forged, or counterfeited, or altered.

4. Obtaining money or goods by false pretences.

5. Crimes by bankrupts against bankruptcy laws.

6. Fraud by a bailee, banker, agent, factor, trustee or director, member or public officer of any company made criminal by any law for the time being in force.

7. Rape.

8. Abduction.

9. Child stealing.

10. Burglary or housebreaking.

11. Arson.

12. Robbery with violence.

13. Threats by letter or otherwise with intent to extort.

14. Piracy by law of nations.

15. Sinking or destroying a vessel at sea, or attempting or conspiring to do so.

16. Assaults on board a ship on the high seas with intent to destroy life or to do grievous bodily harm.

17. Revolt or conspiracy to revolt by two or more persons on board a ship on the high seas against the authority of the master.

Sir Samuel Baker.

GEOGRAPHICAL LETTERS FROM THE GREAT ENGLISH TRAVELLER TO SIR HENRY RAWLINSON.—THE ALBERT NYANZA—DEATH TO THE SLAVE TRADE.

Sir Henry Rawlinson sends to the Times the following letter, which has just reached him from Sir Samuel Baker, and which contains intelligence of a much later date than is furnished in a communication to Mr. Larkin.

The enclosure to Sir Samuel's letter, which was addressed to Sir Frederick Marchmont, and which I have accordingly handed to Sir Bartle Frere for communication to the Royal Geographical Society, gives a very graphic account of the hostilities with Kabrega and the slave traders, which he has since the latter's departure to the north of the Albert Nyanza, as to form one body of water. This information, however, convincing to Sir Samuel Baker at the time, cannot, of course, hold its ground against the positive evidence to the contrary, since acquired by Livingston and Stanley, and, indeed, it will be seen from the letter now published that when Baker, on his arrival at Karoum, learned of Livingston's visit to the north end of Tanganyika, without discovering any outlet, he was rather inclined to mistrust the statement of his African informants. From the route which Baker gives, it would seem that the merchants selling down the Albert Nyanza, to the lake at Karoum, to pass, in two days' march, to Karanga and then retraced their steps westward to the Ruanda or Luanda, which they supposed to be a continuation of the Albert Nyanza, and which they described as the Lake Tanganyika with the Albert Nyanza, so as to form one body of water. This information, however, convincing to Sir Samuel Baker at the time, cannot, of course, hold its ground against the positive evidence to the contrary, since acquired by Livingston and Stanley, and, indeed, it will be seen from the letter now published that when Baker, on his arrival at Karoum, learned of Livingston's visit to the north end of Tanganyika, without discovering any outlet, he was rather inclined to mistrust the statement of his African informants. From the route which Baker gives, it would seem that the merchants selling down the Albert Nyanza, to the lake at Karoum, to pass, in two days' march, to Karanga and then retraced their steps westward to the Ruanda or Luanda, which they supposed to be a continuation of the Albert Nyanza, and which they described as the Lake Tanganyika with the Albert Nyanza, so as to form one body of water. This information, however, convincing to Sir Samuel Baker at the time, cannot, of course, hold its ground against the positive evidence to the contrary, since acquired by Livingston and Stanley, and, indeed, it will be seen from the letter now published that when Baker, on his arrival at Karoum, learned of Livingston's visit to the north end of Tanganyika, without discovering any outlet, he was rather inclined to mistrust the statement of his African informants. From the route which Baker gives, it would seem that the merchants selling down the Albert Nyanza, to the lake at Karoum, to pass, in two days' march, to Karanga and then retraced their steps westward to the Ruanda or Luanda, which they supposed to be a continuation of the Albert Nyanza, and which they described as the Lake Tanganyika with the Albert Nyanza, so as to form one body of water. This information, however, convincing to Sir Samuel Baker at the time, cannot, of course, hold its ground against the positive evidence to the contrary, since acquired by Livingston and Stanley, and, indeed, it will be seen from the letter now published that when Baker, on his arrival at Karoum, learned of Livingston's visit to the north end of Tanganyika, without discovering any outlet, he was rather inclined to mistrust the statement of his African informants. LANDS AND WORKS DEPARTMENT.
5th September, 1873.

THE following Regulations respecting the acquisition of Free Grants of land in British Columbia, are hereby published for general information.

ROBERT BEAVEN,
Chief Commissioner of Lands and Works.

Under the following Regulations and Ordinances, the Government of British Columbia are prepared to give Free Grants of vacant unsurveyed Crown Land, suitable for settlement and cultivation, and not being Mineral Land to bona fide Settlers, in the following quantities and sections of the Province viz—

On the East Coast of Vancouver Island, between Chatham Point and Fort Rupert, 160 acres.
In that part of the Province East of the Cascade range of Mountains, 240 acres.
And intend settling aside two Townships in the New Westminster District, for Free Grant locations of 160 acres, when Surveyed.

Regulations.
1. Before any person can be located for a Free Grant of land, he or she shall make affidavit to be deposited with the Chief Commissioner of Lands and Works, that he or she has not been located for any land under the Free Grant sections or regulations of the "Land Ordinance Act, 1873," and is not a tenant or owner of land in the Province, and that he or she is of the age of eighteen years or upwards, and believes the land for which he or she applies or desires to be located, is suited for settlement and cultivation and is not valuable chiefly for its mines or minerals, and is not acquired for the purpose of obtaining possession of or disposing of any timber growing or being on said land, and that such location is desired for his or her benefit, and for the purpose of actual settlement and cultivation of such land, and not either directly or indirectly for the use or benefit of any other person or persons whomsoever; nor for the purpose of any gold, silver, copper, lead, iron or other mines or minerals, or any quarry or bed of stone, marble or gypsum thereon.

2. Any person making application for a Free Grant shall, if required, produce an affidavit from such person as can make the same, stating that the land is vacant, and that no person has resided upon it for the last six months.

3. No person shall be entitled to hold land in the Province under the Free Grant and Free Grants Acts at the same time; and any subsequent pre-emption right by the locatee shall be considered as an act of forfeiture of any rights acquired under the Free Grant Clauses of the Act of 1873; and the locatee of a Free Grant shall be construed as an act of forfeiture of any pre-emption rights acquired under any of the Land Ordinances or Proclamations in the Province.

4. An alien shall be entitled to locate a Free Grant under the same conditions as a British subject upon signing a declaration, before the Commissioner of the District, or a Justice of the Peace, of his or her intention to become a British subject, but in the event of such alien not completing his or her naturalization at an early period as the law admits, that he or she shall forfeit all rights acquired.

5. No Crown grant shall issue for any land located under this Act or under said regulations, until the expiration of three years from the date of such location, nor until the locatee or those claiming under him or her, or some of them, shall have performed the following settlement duties, that is to say—shall have cleared and have under cultivation at least twenty acres of the said land, whereof at least five acres shall be cleared and cultivated annually during the three years next after the date of the location, to be computed from such date as shall have been built a house thereon fit for habitation, at least sixteen feet by twenty feet, and shall have actually and continuously resided upon and cultivated the said land for the term of three years next succeeding the date of such location, and from thence up to the issue of the Crown grant, except that the locatee shall be allowed one month from the date of the location to enter upon and occupy the land, and that absence from the said land for not more than six months during any one year (to be computed from the date of the location) shall not be held to be a cessation of such residence, provided such land be cultivated as aforesaid.

6. On failure in performance of the settlement duties aforesaid, the location shall be forfeited, and all rights of the locatee, or of any one claiming under him or her, in the land, shall cease.

7. Proof of actual settlement and cultivation shall be made by declaration, under the "Oaths Ordinance, 1869," by the claimant and two settlers in the neighbourhood, before the Commissioner or a Justice of the Peace.

8. In case it is proved, to the satisfaction of the Chief Commissioner of Lands and Works, that the settler has voluntarily relinquished his claim, or has been absent from the land located by him for more than six months in any one year, or has not made the improvements required by law, then the right to such land shall be forfeited, and the settler so relinquishing or abandoning his claim shall not be permitted to be located again for a Free Grant.

9. Neither the locatee, nor any one claiming under him or her, shall have power to alienate (otherwise than by devise) or to mortgage or pledge any land located as aforesaid, or any right or interest therein, before the issue of a Crown grant.

10. All assignment and transfers of Free Grant rights before the issue of the Crown Grant shall be null and void, and shall be deemed evidence of abandonment of the right, and the person so assigning or transferring shall not be permitted to again locate a Free Grant.

11. All Free Grants must be staked off with posts, at least four inches square, and standing not less than four feet above the surface; and one such stake shall be placed at each angle of the claim. Any tree may be used for a post, provided that it be cut down and squared as aforesaid. No such boundary post shall be removed without the permission of the Commissioner of the District wherein the land lies. Upon each post, a notice in the following form shall be affixed:—

"A. B's land N. E. Post" (meaning North-east post); "A. B's land N. W. post" (meaning North-west post) and so on, in the case may be; and shall measure West of the Cascade 40 by 40 chains, and East of the Cascade 80 by 40 chains.

12. All lines shall run due North and South, and due East and West, and all locates or claimants under this Ordinance must comply in all cases, with the official survey when made.

13. A locatee of a Free Grant on unsurveyed land shall, after the official survey has been made, and within three months after a copy of the map of said land has been deposited in his District, and public notice thereof given in the British Columbia Gazette, make application to be located for the quarter section, or quarter section and portion of adjoining quarter section, as the case may be, in which the land upon which he resided, and which he has improved, may be. In case of disputed ownership the Chief Commissioner of Lands and Works shall determine the respective rights of the adverse claimant, according to priority of record and priority of settlement, and the fact of such settlement may
